Engin 103
Fall '06
Meeting #12: October 10, 2006

Today the teams presented the Project 1, part I, on data modeling using data obtained from their research.

Suggested items to write in the Engin 103 logbook:
1) **Write in your own words what are the X and Y data your team used, what is the source you obtained them from. What are the models you and your team tried, how did you arrived at the final model, and what are the coefficients in the model the best s-parameter.**
2) **Any conclusion, or further understanding of the process of data modeling after doing this project.**

Items due next class:
-Project 1 presentations using a given set of data as posted on the course webpage.
