Following Dr. Mahdavis model, hiring someone who is clipty invested in developing personal relationships who students in an ongoing basis + duply invested in creating Cohorts tight experience will connect allums to umb. This possen should not competing a gendes, such a personal but rathers have a focus in teaching + cohort building Jervice focus.

State something that makes it hard to build on what you get going in your graduate program or keep it running, e.g., University admin not providing ready access to contact info on alums.

Staff time not available for outreach or interaction with alums. When we have had staff or work study time, we have been able to build a community with alums and encourage donations.

Getting faculty buy in is hard. Getting them to be active with our alumni outside of the classroom context. Alumni know me since they talk to me a lot for program matters, but they've developed connections with the faculty by taking courses. Thus having the faculty NOT active is detrimental. Also having many adjuncts isn't helping to create that sense of permanence that alumni can come back To
